

SPAIN IS IN A SORRY PLIGHT

Outbreaks in All the Provinces.

FAMINE THREATENED

The Army Can no Longer Be Trusted.

NO MORE BOMBASTIC TALK

Well-Informed Spanish Diplomats Regard the War With America as Already Over—The European Powers May Be Asked to Intercede at Once—Religious Houses Stormed and Bakeries Sacked—The People Regard the Government as Responsible for the Disastrous War.

LONDON, May 5.—The Madrid correspondent of the Daily Telegraph says: These who are best informed as to the government's view, allege that if the Spanish army suffer another reverse like that at Cavite the government would informally request the great powers to lend their services to arrange the best possible terms of peace. "I am assured that the government would be content to cede Cuba to the United States, but would not pay indemnity, because unable. Well informed politicians here regard the war as practically terminated, and that toward the end of May it will become history. What will follow, however, it is difficult to foresee. All the elements of a long civil war in Spain are unfortunately becoming visible. The government and the liberal party are popularly hated as being responsible for the war. The republicans possess no durable chance of success. The conservatives and carlists are the real authorities of the future and some of the conservative groups are gravitating toward Carlism. The economic question, however, will come to the front first, for hunger cannot wait."

MARRIAGE BELLS

Henry Avila and Miss Anna Bernhard Wedded.

Marriage of a Popular Fresno Couple Last Evening at T. W. Patterson's Home.

Last evening Henry C. Avila and Miss Anna Bernhard were married, the ceremony taking place at the home of the bride's sister, Mrs. T. W. Patterson, 1822 I street. It was a quiet wedding, only relatives of the bride and groom being present.

The parlors were beautifully decorated with garlands of roses and sweet peas, artistically arranged, pink and white being the prevailing colors. The ceremony was performed at 8:30 by the Rev. Father Barron. The bride and groom stood beneath an artistic floral piece, a Cupid's bow and arrow. Miss Estrella Davis of Ross valley was bridesmaid, and Raymond L. Avila was groomsmen.

After the nuptial knot had been tied the bride and groom received many congratulations. A splendid collation was served during the evening and all was merry until a late hour. The dining room and table decorations presented a handsome appearance. Beautiful flowers were on all sides. Trailing vines of the bride and groom's names were from the table reached towards a central point on the ceiling, giving the impression of a bower.

The happy couple left last night on the 12:30 train for Coronado beach and other Southern California points, will remain away for two or three weeks.

28 bride and groom are very well known in Fresno, both being popular young society people. Mr. Avila is ticket agent in this city for the Southern Pacific Company and he occupies a high place in the esteem of the business community. His bride is a young lady of many accomplishments and fine personal qualities and is regarded with admiration and affection by a large number of friends.

Those present at the wedding last evening were Mr. and Mrs. E. F. Bernhard, Mr. and Mrs. John A. Nan, Miss A. Acosta of San Francisco, Miss Estrella Davis of Ross Valley, Misses Olive Smith, Maud Ferguson, Eva Patterson and Edna Bernhard; Messrs. Kenneth Hughes, Lewis H. Smith, James Gallagher, Archie Smith and Raymond L. Avila.

Was a Dry April. Weather Observer J. P. Bolton has made out his monthly report for April. The highest temperature noted was 101 degrees on April 25th, the lowest 39 degrees on April 3d, mean temperature 65, excess over average for eleven years 4.6 degrees. There was no rainfall during the month, and this was the first absolutely rainless April for eleven years. The total deficiency during the month was 1.34 inches, total deficiency for the season 4.47 inches. There were twenty-five clear days and five partly cloudy.

Many Patriotic Speeches, But no Practical Action. MADRID, May 5.—Public attention centered again today in the congress (lower house of parliament). There was a repetition of the great crowds of yesterday, the police and civil guards, besides the secret police mingling with the people.

The galleries of the house were packed and many ladies were present. Several prominent senators occupied seats beside deputies. Senor Reverter, minister of finance in the Canovas ministry and the hero of the ex-communication incident last autumn defended the memory and policy of Senor Canovas.

Senor Canovas, editor of El Heraldo, replying, dwelt upon the weakness and

vacillation of the government of Canovas, which fostered "Yankee boldness." The principal speech was delivered by Senor Romero Robledo, former minister of justice and leader of the Weyler party, who maintained that America fostered the Cuban rebellion and "instigated war from the commencement." Senor Moret's policy of autonomy he characterized as a farce and as absolutely erroneous. As for the Cubans he declared that they did not desire autonomy, and as for the rebels, that they never intended to accept it. "The present conflict," he continued, "proves the real intentions of the Yankees. Spain must now face her international enemy, and she should not waste a single pebble to give the Cubans autonomy, which would be a step toward independence. It requires the energy of all classes to defend the king and the fatherland."

THE ARMY WAVERS. Fears of a Universal and Terrible Uprising.

MADRID, May 4.—Noon.—The outbreaks in the provinces are assuming alarming proportions. This is especially the case in the province of Gijon, on the bay of Biscay, where the troops have been compelled to fire on the rioters in "self defense."

The latest news from Gijon is that the artillery has been ordered out. LONDON, May 5.—The Madrid correspondent of the Morning Post says: The government is aware that it cannot rely upon the army. Judging from what one hears, terrible things may shortly happen.

A TOTTERING THRONE.

The Queen Regent May Be Advised to Abdicate.

LONDON, May 5.—The Vienna correspondent of the Daily Chronicle says: "The idea of the resignation of the Regent (Queen Christina) is being considered by the members of the imperial family of Austria, with a view of averting an anti-dynastic movement and saving the throne."

LONDON, May 4.—The Madrid correspondent of the Daily Mail telegraphing Wednesday night says: "The court will tomorrow approve the measure prohibiting the exportation of corn, flour, rye, maize and potatoes and suppressing the duty on the importation of these articles."

LONDON, May 4.—Special dispatches from Madrid say that Republicans are assuming alarming proportions. The artillery was ordered out. Troops were ordered to fire "in self defense." On May 4.—Owing to outbreaks the province of Oviedo has been proclaimed in a state of siege.

MASSING AT THE PRESIDIO

California Troops Are Called Out.

The Seventh Regiment on the Way.

The Trip to Manila Will Depend on Admiral Dewey's Report Now Due.

SAN FRANCISCO, May 4.—It is obvious now, in the light of Commodore Dewey's triumph at Manila, that San Francisco will at once become the base of important military and naval operations. Before many days six thousand armed men will be encamped on the Presidio reservation. It transpires that orders were issued yesterday directing the fourteenth United States infantry, now stationed in the department of the Columbia, to take station immediately at San Francisco. It is believed that further orders will be promulgated to assemble all the organizations of the Fourth United States cavalry at the Presidio.

Orders were received yesterday from Major General A. C. Merriam, commanding the departments of California and the Columbia, instructing Col. Louis T. Morris, commanding the post at the Presidio, to select locations for the encampment of six thousand volunteer troops from the states of Oregon, Washington and California.

About 500 men, it is said, can be cared for on Angel island.

It is the opinion of Colonel Morris that some of the men meaning the batteries of heavy artillery here will be sent to Manila to man light batteries, and that their places will be filled from among the California volunteers recently enlisted and about to be mustered into the service of the United States.

TROOPS FOR MANILA.

Abundant Ammunition and Supplies for Dewey.

WASHINGTON, May 4.—The navy department has now secured two vessels in San Francisco, the Australia and the City of Peking, which will be loaded with coal and supplies and rushed off to join Commodore Dewey's fleet. Whether or not they will carry troops will be determined positively when the Commodore is heard from on this matter.

The navy department is hurrying to get an exceedingly large stock of ammunition to go forward to the City of Peking to recruit the ammunition of Commodore Dewey's fleet. The first shipment of projectiles left New York yesterday, and additional shipments will be made until the quota of powder and shot will be in San Francisco within the next few days. There will be a total of more than 20,000 projectiles of various caliber and weight. For the four big eight-inch guns of the Olympia there will be 500 light steel armor-piercing shells, weighing about 600 pounds each.

NO NEWS YET.

The Dispatch Boat Has Not Reached Hong Kong.

WASHINGTON, May 4.—A sensation was caused throughout the city by the news that came this morning of the arrival of a vessel supposed to be the dispatch boat McCulloch at Mira Bay, forty miles from Hong Kong, the cable terminus. The officials immediately fell into an air of expectancy, waiting for some word from Admiral Dewey that would not only confirm officially the stirring news of the battle of Manila as reported by the press, but telling what had happened since the cable was interrupted. Up to the close of office hours no word had come from Hong Kong.

Among explanations suggested for the delay were the twelve hours difference in time, the distance from Mira Bay to Hong Kong, which had to be overcome by the messenger, and the slowness of cable communication, owing to the number of relays on the enormously long circuit from Hong Kong to New York.

Some of the other naval officers, however, who steadfastly contended that Admiral Dewey would not have sent away his dispatch boat until he had completed his dispatch and received the surrender of Manila, pointed out that if they were right in that assumption it would not be possible for the McCulloch to reach Hong Kong before tomorrow evening.

THE FLYING SQUADRON

May Go to Sea Within Twenty-four Hours.

OLD POINT COMFORT, Va., May 4.—On board the flagship Brooklyn, of Fort Monroe—it is the general expectation here that the flying squadron will go to sea within 24 hours, or as soon as the cruiser New Orleans arrives.

Commodore Schley has been notified that the cruiser Columbia has been de-

tached from the squadron and that the New Orleans will take her place.

THE MANILA VICTORY.

Continental European Powers Not at All Pleased.

LONDON, May 4.—There can be no doubt that the unexpected success of the United States at Manila gives little pleasure to continental politicians, who recognize that America is now certain to become a first-class naval power and will have to be reckoned with in the world's affairs. The fact that the American papers are looking kindly upon the possibility of a British protectorate in the Philippines gives additional umbrage, as indicating a convergence of America and England toward an entente.

LONDON, May 4.—The Associated Press learns that Emperor William and Emperor Nicholas are very much disturbed as to the ultimate destiny of the Philippines and that some sort of immediate intervention is extremely probable.

tached from the squadron and that the New Orleans will take her place.

THE MANILA VICTORY.

Continental European Powers Not at All Pleased.

LONDON, May 4.—There can be no doubt that the unexpected success of the United States at Manila gives little pleasure to continental politicians, who recognize that America is now certain to become a first-class naval power and will have to be reckoned with in the world's affairs. The fact that the American papers are looking kindly upon the possibility of a British protectorate in the Philippines gives additional umbrage, as indicating a convergence of America and England toward an entente.

LONDON, May 4.—The Associated Press learns that Emperor William and Emperor Nicholas are very much disturbed as to the ultimate destiny of the Philippines and that some sort of immediate intervention is extremely probable.

Spanish Prisoners of War.

WASHINGTON, May 4.—Secretary Alger has directed that the ten Spanish officers and the ten privates and non-commissioned officers taken from the Spanish steamer Argonauta, and now at Key West, be taken to Fort McPherson, just outside of Atlanta, Ga., for confinement until they are either exchanged for American officers and soldiers who may be taken by the Spaniards or until some other method for their disposition is reached. The civilians taken from the Spanish steamer Panama are held at Key West and are under the charge of the department of justice.

December Wheat May Touch \$2.

SAN FRANCISCO, May 4.—There was a lively flurry in the grain market today, December wheat advancing from \$1.61½ yesterday to \$1.73 per cental. The sales were very heavy, owing entirely to reports of foreign markets. At the close of the day the situation was very strong, and there was every evidence that tomorrow's market would be higher still. It is the general belief that December wheat will touch \$2.

The other futures were affected sympathetically and March wheat rose from \$1.70 on Tuesday to \$1.78.

Panic in a Glue Factory.

CHICAGO, May 4.—Armour's glue factory, Thirty-first and Benson streets, was in danger of being burned for half an hour this afternoon. The flames were checked with the destruction of the belt worked and carried hair building, entailing a loss of probably \$250,000, with out reaching the ammonia plant or glue works, both of which were in great danger.

A panic among the hundred employees of the felt works where the fire originated resulted in a dozen persons jumping out of the second story windows, some being badly bruised, but none were seriously injured.

Buyer and Reich Assign.

SAN FRANCISCO, May 4.—The Buyer and Reich Company, a fancy goods and notion firm, has made an assignment and announces its retirement from business. The cause of the failure, as announced, is lack of capital on which to carry on business in dull times. The amount of the indebtedness of the corporation is said to be between \$25,000 and \$30,000, and the members of the firm claim that the assets will not fall far below the liabilities.

"Crossing the Bar."

LONDON, May 5.—The Daily Chronicle says this morning: "Mr. Gladstone's strength steadily declines, though there is, we believe, no prospect of an immediate end. He is confined to his room. Now and then his mind reverts to critical periods in his career and to legislation which cost him the most anxiety, but the main thing that fills his thoughts is religion, and he speaks of death as his call."

Nominations Confirmed.

WASHINGTON, May 4.—The senate today confirmed all the Major Generals nominated today, and also the Majors nominated on Monday, together with the following postmasters: California—O. G. Chamberlain, Pacific Grove; S. J. Finch, Eureka; J. T. Lindley, Ontario; George A. Oakes, Hayward; R. A. Young, Randsburg; also some promotions in the army.

Last With All Hands.

St. JOHN, N. F., May 4.—The schooner Crown, Captain Linahan, was lost off here yesterday and her crew of eleven was drowned. The sealing steamer Terra Nova has arrived here with 20,000 seals.

W. Crowling and wife of Trenton, N. J., and Mrs. Train and Miss Bishop of Boston, arrived in Fresno last night on their way to the Yosemite.

Royal makes the best pure, wholesome and delicious.

STRANGE that so little should be heard of William J. Bryan now that he has a chance to do his country a real service.

There is a wicked gleam in the eye of the American eagle, but the old bird will have a more dove-like expression after another barbecue or two like that over at Manila.

The Journal of Hanford is now issued daily, and a very new and neat little journal it is. Hanford now has two excellent papers which occupy the field to the fullest capacity.

The coyote is a ravenous beast. While the inhabitants of Yuma are lined up in front of the bulletin boards reading the war news he has come into town and is ravaging the hen roosts.

It is said that the nerve of the American marines at the Philippines has astonished Europeans. There are more surprises of that kind awaiting them before this little unpleasantness is over.

The indications today are that Spain will throw up the sponge before another object lesson in naval warfare can be given her. The first blow was not only crushing, but the destiny apparently has all it can attend to at home.

Ox to the Philippines is a long cry, but the national guardians of California are ready and anxious to respond if their country calls them to go and hold that far-away land until Spain has been compelled to make proper restitution for the cost to this country of her Cuban infamies.

It is reported from Washington that W. J. Bryan has expressed his willingness to go to war if made a major general. Whether the report is true or not, the words are full of people who are willing to be major generals, although they have not learned the first principles of warfare.

PUMPING AND DRAINAGE.

The REPUBLICAN notes with approval that interest in the pumping of water for irrigation is growing in all sections and that new ideas of importance are being evolved as the subject is investigated. The latest is a proposition to pump water from the ponds and sloughs in the southern portion of this county, which have been formed by the seepage of water from the canal. It is believed that a double purpose can be thus subserved. The water is needed for the purpose of irrigation during any season when the supply in the river becomes low, and by pumping it out of the sloughs the submerged area will be decreased and considerable very rich land reclaimed. In regard to an experiment now being made near that town, the Fowler design says:

J. K. Kennedy of Fowler and C. A. Fuller of Oakdale, who are adjoining properties in Bowles school district, are trying an experiment, which will be watched with much interest. With the aid of a seven-hp centrifugal pump and James McKnight's barley-crusher engine, they are preparing to utilize the water from a large pond on Mr. Kennedy's place for irrigation purposes. As the pond is caused from sub-irrigation it is presumed that water will seep in from the slugs as fast as it is pumped out and thus an almost inexhaustible supply may be obtained. Everything will be in readiness to go ahead with Monday and there seems no possible chance of the experiment proving a failure. This is what may be termed enterprise. Pumping plants have long been in use in other places for irrigation purposes, but this is the first time we have heard of one being used in Fresno county to lift water from a sub-irrigation pond.

It is quite probable that the water from the pond will be put into operation and thus many people will become independent of the canal system. Of course, if many plants are put in, the lowering of the water level under ground is bound to result, but this will be a good thing if it is not carried too far as it will make the country healthier and it will render much land fit for cultivation, which is now under water and of no use to anybody. Messrs. Kennedy and Fuller have our best wishes and we hope to be able to report next week that their pumping plant is a complete success.

The result of the work being done by Messrs. Kennedy & Fuller will be looked forward to with interest. If in all respects satisfactory it may confidently be expected that pumping for irrigation will receive a strong impetus, especially in that section of the county where ponds and sloughs afford a large and convenient supply of water.

In Spain had the discretion of an intelligent nation she would quit now, while it is possible that she might see the Philippines and Porto Rico. A little more effort to save her alleged honor and this government will in all probability be in a position to hold both those possessions for an indefinitely to pay the expenses of the war. An immediate surrender by Spain would leave this government without any tangible security for the loss of the Maine and cost of going to war.

There's a pretty good chance of Governor Bob Taylor of Tennessee going down to Cuba and chasing the yellow-skinned Spaniards off the island all by his lonesome. On Sunday Governor Bob wired to Governor Johnson of Alabama as follows: "I am mad and want to fight. Telegraph the President if I am not appointed Brigadier-General the South will secede." Governor Johnson accordingly wired the President as fol-

low: "Governor Taylor wires me that if he is not appointed Brigadier-General the South will secede. I trust you will take immediate steps to prevent this calamity." Of course that reference to the South's seceding is nothing but a joke, for Bob Taylor is full of jokes. But he is dead earnest about wanting to be Brigadier-General, and if the President isn't heard from soon he's likely to appoint himself and start for Cuba with that deadly little of his. It is said that nobody but a pure-blooded Tennesseean can endure the sounds of Bob Taylor's voice from his violin.

SELMA Republicans have taken the lead in organizing for the approaching campaign, and their example should be followed by every town in the valley. To A. J. Pillsbury, the able editor of the Tulare Register, has been entrusted the task of organizing leagues in the valley, and it could not be better hands. He is ready to respond to calls from any and every locality, and is thoroughly informed regarding the issues before the people and the work that is necessary to be done to unite and strengthen the forces, promulgate sound doctrine and combat prejudices created by misrepresentation. It is not the purpose to conduct these leagues on narrow partisan lines, but to make them educational in the broader and better sense and to create a desire on the part of the people to investigate and study for themselves the questions that they are called upon to decide by their franchise. Work of that kind makes better citizens.

The first session of the International Mining Congress will assemble in Salt Lake City on Wednesday, July 6th, and will remain in session four days. Great interest is being manifested in the event throughout the country and there will no doubt be a large attendance. Delegates are expected from Mexico, Venezuela, Italy, Belgium, France, Denmark, etc., and the United States. The great and far-reaching importance of the subjects that will be presented for discussion and action at the coming gathering bid fair to make it one of the most notable events in the history of the mining industry, and every one interested in mining or kindred lines should make special effort to attend. Reduced rates have been granted for the occasion by the various railroads, and every facility to insure the comfort of visitors will be afforded.

There is nothing of the jingo in William McKinley, but there is instead the soldier and the patriot, and the faith of the people is implicit that a strong hand and cool head are guiding the ship of state amid the shoals and breakers into which she has been driven by the irresistible current of events. With a more important man at the helm there would be greater danger, but not the least probability of coming out of the storm with more honor or with the achievement of more permanent good for the country and humanity.

The Railroad Commissioners evidently need an up-to-date lawyer in "rattle" with "Uncle Collis," who is now a reticent witness before that body. The commissioners are evidently doing their best, but the old gentleman who controls forty lines of railway is apparently too astute for them to cope with successfully. It is greatly to be hoped that the Commissioners will get the information they are seeking, but at this time it looks very much as though they need the assistance of an expert.

With the Nicaragua canal built and controlled by the United States the nation's naval force in time of war could with safety be centered on either coast without endangering the other side. Our forces could then be transported from one coast to the other in so short a time that the number of fighting crafts necessary for effective defense would be materially decreased. The canal should be built at once. There has been enough dillydallying and procrastination.

It is extremely gratifying to know that the parity of politics has been maintained in the appointment of General Lee and Wheeler, the former a "silver" Democrat and the latter a "gold" Democrat. The invasion of Cuba would have been a very lopsided event if both of these distinguished gentlemen had happened to hold the same financial views.

The Los Angeles Times indorses Fresno's proposed donation of rain to the marines as follows: "Fresno ranchers propose to show their patriotism by sending the naval authorities a carload or so of rains for distribution among the ships. It is a good idea, and will make Jack 'dun' a plummy delight after a hard day's work."

THE OFFICERS' WIVES.

How They Regard Their Husbands' Quest for Glory.

From an Echo.

The close personal interest which this community has in the war has had a gloomy effect on Washington society, for on every side one encounters weeping wives and fearful daughters, who eagerly discuss plans and probabilities and anxiously await information from the sources of power and authority concerning the movements of the army and fleet, and the probability of a conflict.

At the same time these brave women take a pride and interest in the hopes and ambitions of their husbands who have gone to sea to win glory for themselves, as well as freedom for the people of Cuba. They have been assured individually over and over again that there is no danger to the ships in the slightest danger; that it is impossible for the Spaniards to capture or destroy or even injure the ships of our fleet. One family here has contributed two officers—a father and a son-in-law—to Captain Sampson's squadron, and the wife of the younger officer was talking so bravely and so assuredly on the other day on the prevailing topic, "Do you think the Dolphin will be in danger?" she inquired.

"If she were hit by a shell or a shot from one of those Spanish cruisers you

would never know what became of her," replied the admiral, thoughtfully. "Goodness gracious!" exclaimed the wife, "then you mean that all the ships in the Spanish navy could fire on the Dolphin all day and would never hurt her a bit!"

The admiral appreciated the situation and replied: "The Dolphin, sir? Why, of course not, they never would hit her," and the truthful woman went off with renewed confidence. But sometimes this comforting is overdone. The wife of the commander of one of the merchantmen that has been converted into a cruiser has been going around with fearful eyes for several days, while her friends in and out of the navy have been trying to brace up her nerves. She finally told her husband that her husband could not be in any danger. They finally told her that his ship was not likely to see any fighting at all; that it probably would be used exclusively for coast defense, and of course the Spanish fleet would never get far enough west to give them any employment. It was almost certain, the friends told her, that her husband would not get within sound of the shooting. This made her very indignant and she started for the Navy Department to demand of Captain Orin, chief of the bureau of navigation, who makes the assignments of officers to ships, that her husband should have as good a chance as the rest of the navy to fight the Spaniards.

PLAYED BY MEXICANS.

An Indiana Boy's Misadventure In the "Penitentes' Domain."

Glen Hunt of Kokomo, Ind., had a thrilling experience a few days ago, the particulars of which he wrote to his parents. While touring through a wild and remote region of New Mexico with a companion he ran into a semibarbarous tribe of people known as "Penitentes," whose custom is to do penance for sins committed and ward off evil spirits by scourging themselves with tattered whips, lacerating their bare backs with broken glass, carrying heavy crosses and other severe tortures. It is a custom with them to apply this torture to all persons who show themselves in the domain of the Penitentes, and Mr. Hunt and his companion were promptly taken in charge by the natives and subjected to the severe superstitious treatment. Writing from Mow, M. M., Mr. Hunt says:

"I heard a noise behind me, but before I could turn around a man jumped on my back, and they hit me. Four of them dragged me into an old building and through several rooms, the dark apartments being separated by low doors. I supposed they intended to rob me, then kill me. My hands were tied, and when I screamed they tied an old rag around my face, closing my mouth so I could scarcely get my breath. I tried to speak to them in English and Spanish, but they paid no heed.

"After my hands were tied behind my back and my mouth stopped they blindfolded me, then strapped a long wooden cross, weighing 70 pounds, to my shoulder. I was then led to another part of the place, where the Penitentes applied the cat's paw to my back, laying on the tortuous weapon with all the strength at their command. I was fearfully lacerated by the prickly whip, and I will be sore for a long time from the effects of the merciless chastisement. After laying me out and bloody I was taken to the door and told in Spanish to clear out. Still blindfolded and handcuffed, I wandered away, carrying the heavy cross, and after a long, weary tramp I was released. My companion was given the same treatment, but he escaped while they were whipping him."—Chicagoan Enquirer.

COLONEL PAYNE'S GIFT.

He Donates \$300,000 For the New Cornell Medical College in New York.

It was recently reported that the giver of the fund to establish the new Cornell Medical college in New York is Colonel Oliver H. Payne of that city. While President Schuman would not confirm the rumor, it is accepted as a fact among the members of the faculty. H. F. Dismick, representing Colonel Payne, was present at the meeting of trustees in the other day. The amount of the gift was \$300,000. Colonel Payne has always taken great interest in medical work and has been a member of the board of trustees of New York university.

Dr. Henry P. Loomis at his house in New York the other evening confirmed the report that Colonel Payne is the giver of the fund to establish the new Cornell Medical college in New York. Dr. Loomis said that the fund amounted to about \$300,000. He also said that a feature of the school which had not been brought out was to be coeducation. Dr. Loomis further asserted that the announcement of the foundation of the new college had caused a great deal of comment among physicians, and, so far as he could learn, a large number approved the plan.—New York Tribune.

SERGEANT JASPER.

Rare Honor Paid to the Memory of a Revolutionary Hero.

The meeting of the new battery on Sullivan's Island, Charleston, Ind., after Sergeant William Jasper is notable the only instance on record in the United States of a fort being named in honor of any soldier other than a commissioned officer. Sergeant Jasper died his life at Savannah on Oct. 9, 1779, while planting the flag of the Second South Carolina regiment on the British ramparts.

The spot at which he is supposed to have fallen is on what is now Liberty street, between Jefferson and Montgomery. The monument in Madison square, south of the DuSoy hotel, is Savannah's testimonial to the heroism of the gallant Jasper.—Savannah News.

Heaven For Map Sellers Up State.

More interest has been taken in the geography of that part of the globe lying directly south and southeast of Florida within the past few weeks than ever before in the history of the country. Men who seldom look at a map have been studying all around through the Bahamas, the Canaries, the Florida keys, the Lowland, the Caribbean and many others. Maps of Cuba and the surrounding islands have appeared like magic. One enterprising traveler sold a fair map on the street for 15 cents, and he had scores of customers. They cost him about 3 cents each, and he made good wages. A crowd can be secured in front of any window if that window contains a map of Cuba or a map of Spain. Nothing will attract attention

quicker—unless it be a picture on a wall—than a map of Cuba or Spain. People study the country with as much apparent interest as though it was a new property which we were about to occupy.—Union Observer.

Largest Vessel Afloat on Fresh Water. Ten thousand visitors from all portions of the state were at Lodi, O., recently to witness the launching of the new steamship Superior City, the largest boat afloat on fresh water. This is the first vessel built at the new yards of the Cleveland Shipbuilding company at this place. The new steamer was built for the Zenith Transit company of Duluth, at a cost of \$265,000. Her length is 150 feet, and 50 feet beam.—Cincinnati Enquirer.

ROBINSON'S BIZARRE ACTS.

They Were Rehearsed to the Jury Yesterday.

Yesterday afternoon the defense put in a good deal of evidence in the case against Edward J. Robinson, the Selma attorney charged with arson. The testimony was intended to show that the prisoner was not mentally sound and hence not responsible. Robinson sat with his head to one side, and kept blinking his eyes. His right hand rested in his vest and he wore an expressionless countenance. All the bizarre things that he had ever done were recounted to the jury, but the prisoner did not appear to see the absurdity of them, nor appreciate the humor that made even the jurors smile.

Among other things he wrote a shorthand letter to George L. Wallow, and when given some bills to collect he mailed ridiculous letters to the creditors, threatening to send them to jail. He rushed up to a person whom he did not know and asked him for an introduction to a young lady to whom he was talking, and made many other things which were decidedly out of the ordinary, to say the least. The boys in Selma put up a job on him and gave him a note or some such thing against the British government to collect, etc., and he tried hard to make the Queen penguin. The case will be resumed today.

DIED.

LINDSEY—At the county hospital, May 4, 1898, a native of Ohio, aged about 65 years.

FRATES—In Fresno, May 4, 1898, infant child of Mr. and Mrs. John Frates.

Commissioner's Sale.

No. 813, Dept. 1.

In the Superior court, county of Fresno, also of (California).

Lydia J. Foster, plaintiff, vs. M. H. Howell and George Howell, wife of H. H. Howell, defendants.

WHEREAS, an order of sale in the above-entitled cause is directed, was entered in the Superior court of said county of Fresno, on the 4th day of May, 1898, on a judgment and decree of foreclosure of mortgage, with interest thereon at the rate of ten per cent per annum, in favor of Lydia J. Foster, plaintiff, and against M. H. Howell and George Howell, defendants, which said judgment and decree is recorded in judgment book, volume 109, page 109, of said county of Fresno, and the sum of nine hundred and seventy-seven and 10/100 dollars, in gold coin of the United States, with interest thereon at the rate of seven per cent per annum from the date of said judgment, and accruing costs.

And whereas, I am commanded by the said order of sale to sell the mortgaged premises to satisfy said judgment and all costs.

Notice is hereby given that on Wednesday, the 1st day of June, 1898, at 12 o'clock noon of that day, in front of the door of the court house, in Fresno, county of Fresno, state of California, in obedience to the commands of said order of sale, I will sell the mortgaged premises, to-wit: the above-described land, which said premises are situated, lying and being in the county of Fresno, state of California, and are described as follows, to-wit:

Lots twenty-six (26), twenty-seven (27) and twenty-eight (28) in block one hundred and forty-one (141) of said county of Fresno, as per official map thereof now on file in the recorder's office of Fresno county, also of said county of Fresno, and all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining.

And that the said sale will be made at public auction to the highest bidder for cash, payable in gold coin of the United States.

Dated, Fresno, May 4th, 1898.

W. H. Walsh, Attorney for Plaintiff.

WAR! WAR!! WAR!!!

I want to enlist when that second call for 500,000 volunteers comes. I served 6 years as a private in Co. C and wasn't offered a Corporal's place even though Captain (now General) Muller offered to make me a lance Corporal if I would serve 6 years longer, consequently I will have to go as a private at \$13 a month. Everybody knows that a family of 6, to say nothing of the dog with two broken limbs and other incurables, cannot live luxuriously on a private's salary. I must therefore have a chance to lay by a few dollars prior to the time I don't want to go in. In order to do this, I want a share of the insurance business of this vicinity. My combination is the Union, the Lion and the German Alliance Insurance companies, and they're all right. The American Union, the British Lion and the German Alliance may be the line up in case the scramble now on becomes universal, and they will be all right, too. It don't cost you any more to insure with me than with the others, and I need the business. If I don't have to go to war I'll pay you back all I make and more in case you have a loss. If you have overlooked me, please don't let it occur permanently.

FORWARD MARCH!

One Fresno Company To Be Mustered In.

Will Most Likely be Company F, Captain Jones Being Senior Commander.

According to a dispatch received from San Francisco last night only one Fresno company of the national guard will be called out, and the question naturally arises, Which company will it be? Both volunteered at the same time, but as Captain Jones is the senior commander in this city it is likely that Company F will be the one ordered out. Captain Cook of Bakerfield is the senior captain of the regiment, and Captain Jones ranks next.

The dispatch is as follows:
SAN FRANCISCO, May 4.—The two battalions of infantry which are to make up the complement of California foot soldiers and which have not yet been appointed will be made up of two companies from Sacramento, one from Grass Valley, two from Stockton, one from Bakerfield and one from Fresno. Possibly two companies may be taken from the Fifth regiment, commanded by Colonel Fairbanks, with headquarters at Petaluma. But if he can arrange it, the Governor will try to keep the Fifth intact for mustering in as an organization when the expected second call comes from Washington.

CAN'T BE FOUND.

M. H. Ashderian and Mrs. Williams Baffle the Officers.

What has become of M. H. Ashderian and Mrs. Elele Williams? That is the question that the officers are trying to find the answer to. Yesterday the warrant for the arrest of the couple, which Deputy Constable Dumas had, was given to Deputy Sheriff Timmins and Officer Smith and they spent the day and part of last night in a quest of the pair, but could obtain neither sight nor clue of them. Even Mrs. Looze, who was arrested and placed under bonds Tuesday night, could not be found yesterday. The last seen of Ashderian and Mrs. Williams was when they drove off together Tuesday evening.

A charge of extortion will be made against all three of them and still another charge will likely be brought. Yesterday notices were telegraphed throughout the state for the arrest of Ashderian and Mrs. Williams.

REPUBLICAN CLUB ORGANIZED

Selma in Line for the Coming Campaign.

On Tuesday evening A. J. Pillsbury of Tulare addressed an audience in Selma at the Unger opera house upon "Money," giving an interesting and instructive account of the history of governmental experiments in making a medium of exchange. A large number of persons were present at the meeting and listened attentively to the address.

After the speech a Republican club was formed. It is a branch of the National League of Republican Clubs, and no doubt will do much effective work during the present campaign. Twenty-six names were enrolled on the list of membership, and the club starts out with much enthusiasm. It will meet twice a month. The following officers were elected by the club: B. E. Shapard, president; E. Roadhouse, vice president; Mrs. L. M. Willis, secretary; V. I. Willis, treasurer.

THE DANISH BROTHERHOOD

Celebrates Its Fifth Anniversary Last Evening.

A pleasant social was given last evening in Edgerly hall by the Danish Brotherhood of Fresno in celebration of its fifth anniversary. About 150 persons were present.

The early part of the evening was devoted to dancing and all united in having a good time. Music was furnished by the Danish orchestra led by Professor H. Sten. L. Lingby was floor manager, and N. Johnson and N. C. Hansen floor directors.

A banquet was served at 12 o'clock and many patriotic toasts were drunk. The speakers all united in expressing sentiments of loyalty to their adopted country and expressed their desire to do battle for the honor of the flag. Admiral Dewey's recent victory was mentioned with pleasure and the guests frequently applauded the speakers.

Dancing continued until a late hour.

AN UP TO DATE PRESENT.

Rev. Edward Eccleston Presented With a Bicycle.

Rev. Edward Eccleston was a surprised man last evening after the prayer meeting at the Presbyterian church, of which he is pastor. The minister did not pray for a bike, but after the meeting he was presented with a handsome wheel by the congregation. The presentation speech was made by G. M. Edmonds. The happy pastor responded felicitously, although he was completely surprised.

Several of the pastors of Fresno are "bikers," and the Presbyterian congregation desired their pastor to be as advanced as his co-workers. Let us all hope the pastor will not fall by the wayside, nor take a tumble in the middle of the road, either, nor forget to light his lantern, nor puncture his tire, but that his bicycle career may be a pleasant one.

For Deserting His Children.

B. B. Brown of Wildflower was tried before a jury in Justice Tucker's court at Selma yesterday for failing to support his children. He has a wife and six little ones. His wife is a member of the Salvation Army, and domestic bliss has not reigned in the Brown household. Some time ago the father refused to support his family any longer. The jury disagreed, although eleven voted for acquittal. It developed that there were two sides to the case, and the majority of the jury thought the husband was not to blame.

Had a Narrow Escape.

J. L. Eadens, who was shot at Mendota several weeks ago by Deputy Constable Adams, has about recovered from his injuries. He was shot through the left lung, the bullet passing into the back and coming out at a point a few inches above the heart. It is expected that Eadens will be discharged from the hospital next week.

WHAT I SAW.

New Palm Garden,
OPPOSITE THE ARMORY.

I stood on Mariposa street in Charley Berry's place; We talked about the Latin and the Anglo-Saxon race. He claimed the Anglo-Saxon was superior to the Don; And then I said: "The Teutons and the Saxons are all one."
"You take a Saxon's marble head and his heroic form; Again: him looks a Spaniard just like a common work."
The Saxon's grace, his portly gait, his face so strong and fair; His figure does remind one of Apollo Belvedere."
"God's masterpiece," I further said; and then I said no more—
I saw my picture in a glass which hung in Charley's store; I couldn't say another word, but gave the boys a wink,
And every one who heard me talk would smile and take a drink

Mariposa street, between H and I, directly opposite Bank of Central California.

FRESNO RAISINS

For the Soldier Boys and Sailor Lads.

The Chamber of Commerce Further Considered the Proposition Yesterday.

The executive committee of the Chamber of Commerce held its weekly session yesterday afternoon, and again the matter of sending a car-load of raisins to the army or navy (it has not been decided which) was brought up and discussed. It was stated that raisins were an excellent preventative for scurvy and for that reason, if for no other, it was believed that the offer would be gladly accepted by the government.

When the matter was discussed a week ago it was the idea of sending the lower grade of raisins, but yesterday it was agreed that nothing was too good for the gallant soldier boys and the brave sailor lads, and it was decided that if the car-load could be obtained, it should consist of the very best raisins—raisins that would be a credit to the country and would serve the incidental purpose of showing the high quality of the product for which Fresno has been justly famed the raisin center.

President Reichman and John O. Nourse agreed to take the matter up and see what could be done toward getting a car-load of raisins by donations from the growers.

The following-named were elected to membership: Sam Woldenberg, E. L. Hoque, Nelson & Drew and O. W. Cutten.

Chairman Reichman reported sending photos for an article to appear in Harper's from Helen Hunt Gardner, who is preparing an article on the fruit industry of California.

It was also reported that the meeting of the committee appointed to secure a reduction of taxes took place Tuesday afternoon. The committee will meet again Friday, when it hopes to arrive at something definite to be presented to the Supervisors.

PERSONAL.

Colonel Delano is down from Fice Gold.

Attorney Horace L. Smith of Hanford is in the city.

F. V. Dewey of the Hanford Journal was in Fresno yesterday.

Snyder, the baseball player, will leave for his home in Iowa this morning.

W. A. Ledbetter left this week for Alaska where he will seek a fortune.

G. Goldstein of San Francisco is in Fresno looking after his extensive interests.

Mrs. Leah Spaulding, the mandolin teacher, has returned from a visit in Berkeley.

W. B. Webber of San Francisco is in Fresno representing the Standard Oil Company.

A. G. Park, the Hanford attorney, accompanied by his son, Theodore, was in Fresno yesterday.

A SORRY MAN TO SEE.

Johnny Albin Ought to Arrest His Bad Luck.

Johnny Albin, the efficient deputy constable, was the sorriest man in town yesterday. His wife went to San Francisco for a visit, his pet pug got in pound, and his driving horse, which was on pasture, had his head severely cut, but with considerable "hot sense," came home, a distance of thirteen miles. Yesterday morning when the Deputy Constable got up he saw the knowing animal at the front gate waiting for him in order to have his head doctored.

The officer no sooner had reached town than he learned that the pound-master had gathered in his pet pug. When last seen last night Mr. Albin wore a pensive look and was waiting for the next thing to happen.

Pabst Milwaukee Beer on draught at the Commercial Saloon, 1819 Mariposa street.

"THE PURSER."

Farris Hartman's New Comedy Monday Night.

The Comedy Hit of the Season in San Francisco.

In spite of the war excitement and the patriotism it has called forth, Farris Hartman in "The Purser," the satirical comedy now running at the Baldwin theater, San Francisco, has scored a decided hit and claims a large share of the popular favor. "The Purser" will be seen in Fresno at the Barton on next Monday night and will be presented exactly the same as at the Baldwin in San Francisco, but there will be no advance in prices. The regular admission, 25 cents to \$1, will prevail.

The stage settings are extremely fine, especially in the second act where the ship is illuminated by electric lights in honor of the Captain's birthday. The San Francisco Daily Report says: "The Purser" is by all odds the best comedy we have had here in months.

"HAVANA'S LAST CIGAR."

The Native Police that the Cuban Cigar Industry is doomed.

The condition of things in the cigar factories of Havana could not be more hopeless. Here is a statement made by the head of a leading cigar factory one year ago: "In the department devoted to the preparation of raw tobacco we employ 500 men and 200 women; average daily production, 50,000 pounds. In the cigar making department we employ 200 men and 100 women; average daily output, 1,000,000 cigars." Now, compare these figures with others which have recently been obtained by a visit to that same factory: In the raw tobacco department, 30 men, 10 women; average daily output, 2,500 pounds of tobacco. In the cigar making room, 20 men, 5 women; average daily output, less than 75,000 cigars. From 1,000,000 cigars a day to 75,000 a day in a single factory! How long before the smokers of the United States will seek in vain for real Havana cigars?

All the best Havana cigars are exported. Havana itself must be contented with a second rate smoke at a first rate price. Half the cigar stems, formerly flourishing, are now boarded up. Half of the cigar stands still doing business are stocked very meagerly with a lot of poor cigars. Moreover, a leading New York cigar manufacturer, now in Havana, says that half the cigars sold there and in the States are "clear Havana" are made of Virginia tobacco. The raw material is sent direct from Virginia to Puerto Rico. At Puerto Rico it is repacked and shipped to Havana as native Puerto Rico tobacco. In Havana Puerto Rico tobacco from Virginia is made into cigars and sent back to the States as "clear Havana."

The natives are of the opinion that the Cuban cigar industry is doomed. Their opinion is founded on the facts just given. It looks entirely probable that in a few months Havana will have on exhibition, draped in mourning, a curiosity labeled "Havana's Last Cigar."—New York Sun.

PARADISE FOR TRAMPS.

Somerset County, in New Jersey, will not punish them except for Vagrancy.

The board of freeholders of Somerset county, N. J., has taken a singular stand on the tramp nuisance, considering the fact that the general tendency of other county officials is to enforce conditions that will tend to drive vagrants from their bailiwicks. The only punishment that Somerset county has for tramps is incarceration in the county jail for terms ranging from 30 days to six months.

This has been the practice for years, with the result of having a number of vagrants to support all the time at county's expense, with no perceptible relief from their nuisance. The expense of this custom has agitated the rural precinct to the extent that the board of freeholders has ordered that no more tramps be sent to the county jail at the county's expense unless they are guilty of some crime other than vagrancy.

This is considered a serious blow for the constables who reap fees from the arrest of the vagrants, but the agriculturalists are in great place over the prospective exemption from this source of expense.

Lost a Leg by Paring a Corn.

James Ford, a resident of Catskill, recently paried a corn that annoyed him, using a knife. "The other day I could not sleep in my foot, the next day it turned black with gangrene, and the doctor after amputation of the leg was resorted to as the means of saving his life, the limb being amputated half way between the knee and hip. Mr. Ford is 74 years of age and a veteran of the Mexican war.

Chicken Dinner.

The ladies of the M. E. Church South will give a chicken dinner Friday, May 6th, from 12 to 2 o'clock at the Women's Exchange on J street. Dinner 35c, including tea and cake.

Rooms and Board.
